Room 5241, Washington DC 20510

Dear Sir.

I am a substitute in the
Milwaukee Public School System.

I do scientific experiments in high
voltage electricity. I have studied
all the available writings of
the dead genius Nikola Tesla
(1861 - January 7, 1943)

When Nikola Tesla died the
Federal Bureau of Investigation
came and opened the ~~the~~ safe in
his room and took the papers it
contained, to examine ~~them~~ them.

ENCLOSURE

(b)(7)(c)

for a reported secret invention of
possible use in II W.W.

As a ~~citizen~~ citizen & a
scientist I would like to
study these unpublished papers
with hope of finding new
ideas ~~into~~ for producing an alternate
source of energy. Something
that Nikola Tesla knew about
and because of his unfortunate
financial status, was not able
to develop into a working model.

Please help. -

With love in The Co.
